Journal of Medical Sciences Research

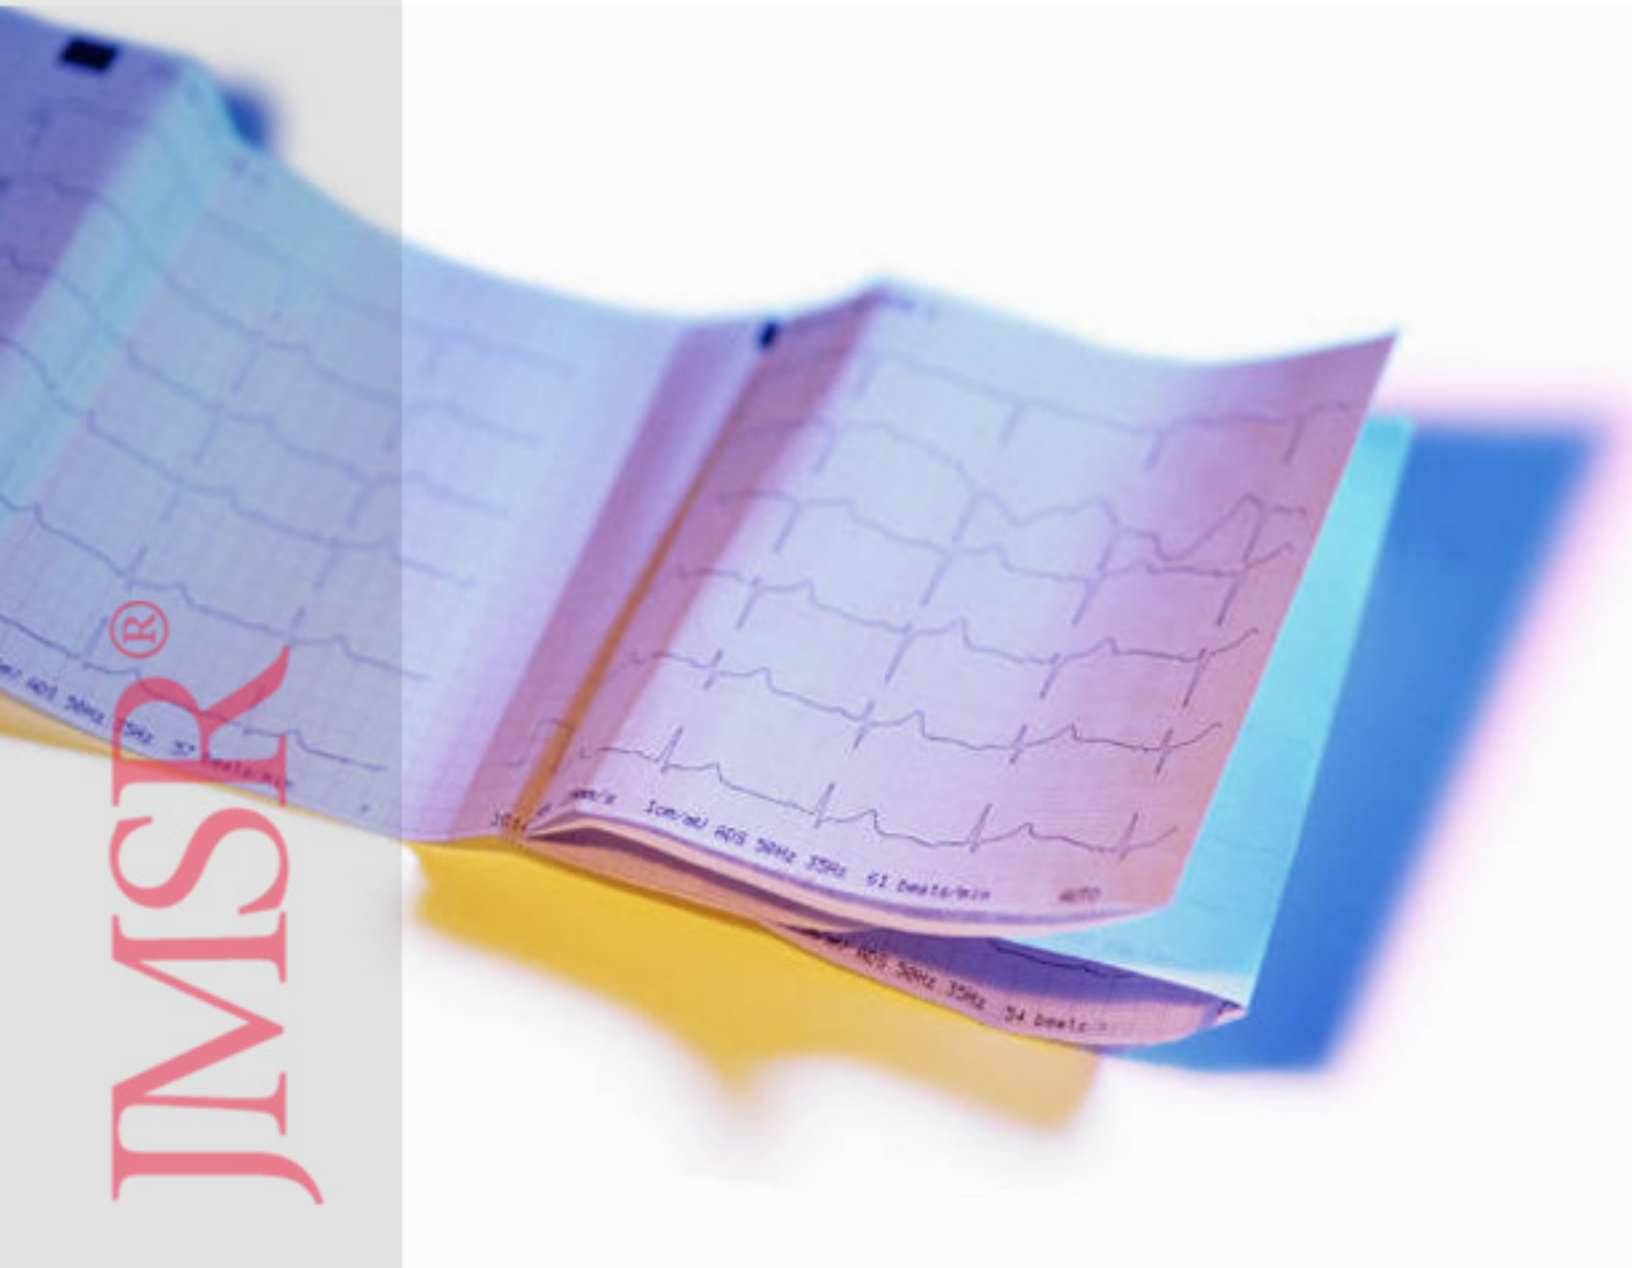

Table of Contents

Volume 2

December 2007

Editorial

INITIAL: Cover, TOC, Editorial Team; Editorials for 2nd issue..... 1-8

Letters

Fenofibrate and Orlistat, Alone or in Combination, Do Not Alter Plasma Visfatin
Levels in Subjects with Metabolic Syndrome 9-10

Analysis and Comment

Need to Be 'Vigilant' about Pharmacovigilance Studies 11-12

Research

Patterns Microvascular Distribution of the Colonic Wall Studied By Electron
Microscopy: Experimental Study in Rats 13-18
A Survey of Impaired Vision and the Common Etiology in the Rural Population
of Sabzevar, Iran..... 19-24
Olanzapine addition to Serotonin Reuptake Inhibitor in Patients with
Treatment-resistant Obsessive-compulsive Disorder..... 25-28
Protein Precipitation Methods Evaluated For Determination of Serum
Nitric Oxide End Products by the Griess Assay 29-32

Review

New Chapter in Old Story: Endocrine Disruptors and Male Reproductive System 33-42

Clinical Practice

Long Term Clinical Efficacy of Local Care of Post Surgical Localized Cholesteatomas 43-48

Case Report

Unexplained Constitutional Symptoms, Weight Loss and the Heart 49-50
Persistent Gastrointestinal Bleeding after Jejunal Resection of a Bleeding Jejunal Angiodysplasia .. 51-54

Colloquium

Conducting a Voluntary Module – Personal Experiences 55-58

IT for Medical Doctors

Internet Fraud 59-64

News

Medical Conferences in December 2007 65-76

October Witnessed the Launch of the First Issue of the Journal

The editorial team is pleased with its efforts but the view and response of the readership is much more important and we would greatly appreciate receiving feedback and comments. These can be done directly to the Editor or Deputy Editor or as Letters in the Journal. In this regard we thank those who have written to the Editor already:

DR. Mohammad Abdollahi
Dr. Sesh Narasimhan
Dr. shadab salehpour
Dr. Maryam Shams Lahijani
Dr. Sumer Kumar Sethi
Sohail Khan
Dr. Ravi Shankar
Dr. Shobha k L
Dr. Narayan B. Basnet
Dr. Reza Shiari

We have tried to fulfill the aims of the Journal and it was possible to do so in the first issue with articles covering basic research ranging from teratogens to social values and the prevalence of smoking and tobacco chewing. The first issue also included articles of clinical practice and medical education. The Journal also welcomes announcements of medical conferences and if appropriate, and by prior approval of the Editor, will also publish summaries of recent regional conferences. However the future and progress of the Journal will be dependent on submissions. We need a bank of articles to draw on to fulfill our aims. Eventually success will be measured by impact factor and other parameters that are employed to assess the significance of the journal. As this is a free-access journal, subscriptions that are an important driving factor behind most other medical journals do not have a significant role; nonetheless, the readership remains important as it drives the impact factor. The success of this Journal thus is in your hands as a reader and importantly, as an author.

We welcome your submissions. The mission of the Journal is sufficiently broad and should be seen as a vehicle for the publication of the full range of medical research ranging from basic to clinical medical sciences. The editorial team looks forward to your contributions.

Dr. Hamid Tarkhorani
Editor in Chief

Dr. Anthony S. Leong
Deputy Editor

Thank you!

The Journal of Medical Sciences Research (JMSR.org) would like to say its special thanks to all who have helped our journal release in various parts.

- Dr. Hua Siew Gan
- Dr. Ketan B. Gajjar
- Dr. Sohil Khan
- Dr. Shaikh Abdul Hai
- Dr. Armin Madadkar Sobhani
- Dr. Lakshmana Rao Lanka
- Dr. Ebrahim Shirzadeh
- Dr. Nurdan - Paker
- Dr. Kavita Krishna

Mahavir Medical College, Safdarjang
Hospital New Delhi-110023 India

JMSR

Journal of Medical Sciences Research

Dear Doctor

Greetings from the **Journal of Medical Sciences Research (JMSR)**

I would like to introduce myself as Editor-in-chief of the Journal of Medical Sciences Research. It is a newly launched electronic medical journal.

Mission

The mission of Journal of Medical Sciences Research (JMSR) is to facilitate the equitable dissemination of high-quality health research; to promote international dialogue and collaboration on health issues; to improve clinical practice; and to expand and deepen the understanding of health and health care.

Join JMSR as Author

It is prevailing practice in medical profession that person who treat diseases never write his experience, on the other side person who involves in research never gets real feedback of their research. JMSR aim is to fill this gap.

As author you must be a physician or researcher and a desire to write your experience. We will provide you our services to improve you manuscript including English language help and peer review of it.

JMSR gives priority to original research reports that are likely to have important implications for human health and clinical practice.

Research papers may be submitted as clinical trial protocols that have been registered at www.clinicaltrials.gov, registered clinical trials, prospective cohort and case-control studies, research letters, case reports, as well as new studies examining health care science, education and practice, descriptions of advances in health care technology, and re-analysis or updating of previously published data. All reports are published immediately online after peer and editorial review and editing.

Join JMSR as Peer Reviewer

Unbiased, independent, critical assessment is an intrinsic part of all scholarly work, including scientific investigation. Peer reviewers are experts in their field who are not part of the editorial staff and thus are an important extension of the scientific process.

Before agreeing to review a manuscript, reviewers are asked to consider the journal's Competing Interest policies and declare any conflicts (financial, intellectual) that would preclude a fair and balanced judgment of the manuscript they have been asked to review.

By reviewing a paper, reviewers also agree to hold all information contained in the paper as confidential until publication. Peer reviewers are asked to submit their review within three (3) weeks.

Join JMSR as Editor

If you are interested to serve as Editorial board member, send a brief email to the editor, stating the subject area you are most interested/experienced in. Enclose a full list of publications, a list of funded research as principal investigator, and activities as editorial board member or referee for other journals or research programs. Simultaneous membership of editorial boards of other journals or newsletters closely related to the area of Internet and Medicine must be disclosed.

Other Salient Features of our Journal

Free world wide access

Quicker publication

Peer reviewed

Bimonthly publication

Multidisciplinary

Facility to submit comments on articles

E-mail notifications on release of new issues

Online submission of articles

I invite you to publish your original articles, observations and case reports and make a significant contribution to the medical field. We help you in your endeavour and reward you suitably.

For details, visit the website www.jmsr.org and kindly register. Registration is absolutely free and will take less than 2 min. of your time.

This journal and its services are not affiliated to any pharmaceutical or other company.

Best regards,
